Molding Guide

Length: All our moldings are 84" (2.133 mm) long.

Enhance the appearance of your Lauzon hardwood flooring and living spaces with our coordinating moldings. These premium prefinished wood moldings are manufactured to harmonize the color of the hardwood floor, not to replicate it's look or pattern. They are perfect to match your decor and blend with almost any other hardwood, tile, stone, vinyl or laminate flooring.

STAIR NOSING

Available in brushed or smooth texture.

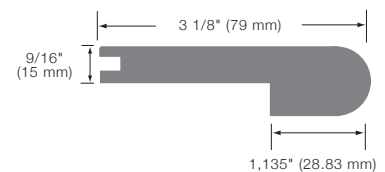

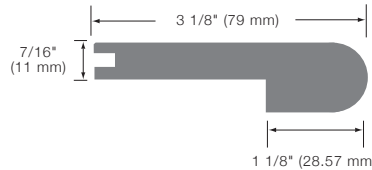

The stair nosing is used to finish the edge of the hardwood floor where it meets a staircase. It limits the damage caused by the frequency of traffic and preserves the beauty of the stairs. It allows installation flush or with encroachment. Lauzon Collection offers two models:

ROUND STAIR NOSING

- Multiply Engineered 7/16" (11 mm)
- Multiply Engineered 9/16" (15 mm)

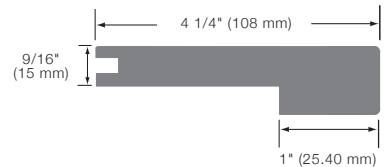

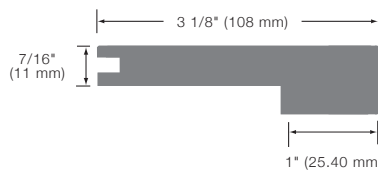

**Multiply Engineered 3/4" (19mm) available as a special order in Hard Maple and Red Oak only.*

SQUARE STAIR NOSING

- Multiply Engineered 7/16" (11 mm)
- Multiply Engineered 9/16" (15 mm)

**Multiply Engineered 3/4" (19mm) available as a special order in Hard Maple and Red Oak only.*

REDUCER

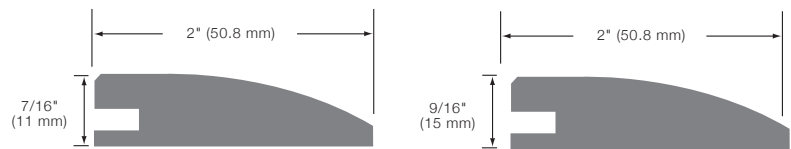

Available in brushed or smooth texture.

Reducer provides a natural transition between a hardwood floor and another type of flooring of a slightly lower height. It also creates a smooth finish against any vertical surface or where quarter round cannot be used.

- Multiply Engineered 7/16" (11mm)
- Multiply Engineered 9/16" (15 mm)

**Multiply Engineered 3/4" (19mm) available as a special order in Hard Maple and Red Oak only.*

THRESHOLD

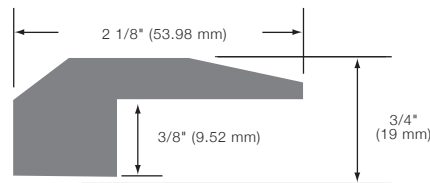

Available in smooth texture.

Threshold neatly complements the space where hardwood flooring ends.

Our universal format is suitable for the following constructions:

- Multiply Engineered 7/16" (11mm)
- Multiply Engineered 9/16" (15 mm)
- Multiply Engineered 3/4" (19 mm)

T-MOLDING

Available in smooth texture.

T-molding ensures a smooth transition between two separate areas of hardwood flooring.

Our universal format is suitable for the following constructions:

- Multiply Engineered 7/16" (11mm)
- Multiply Engineered 9/16" (15 mm)
- Multiply Engineered 3/4" (19 mm)
